Knee Brace with Hinges

Product Code : HKS004

Indications :

- ♦ Post ACL Ligament Tear Grade1
- ♦ Post Operation Support
- ♦ Post MCL/LCL Ligament Tear Grade 1
- ♦ Post Meniscal/Cartilage Damage Grade1

Features:

The drytex hinged knee- a neoprene alternative fabric that allows improved airflow, is design for mild to moderate medial and lateral control. It allow 180 movement and prevents hyper extension of the knee. This fabric provides excellent compression & support yet allows breath-ability. It is deal for patients who have allergies or irritations to neoprene or those who live in warm weather climate. It has a popliteal cut out design and a patellar donut in front to provide stability to the patella.

OA Knee Brace

Product Code : HKS009

Indications :

- ♦ Osteoarthritis Knee
- ♦ Varus Deformity of Knee

Features:

It aids in the corrections of lateral or medial joint space by the 3 point principle even in the advanced stage of osteoarthritis. It relieves pressure on the medial or lateral joint compartment and also decreases further capsule irritation. A Wide well cushioned frame padding is provided for the 3 point pressure relief system. To reduce the torsional force it has been armed with a malleable frame design.

Functional Hinged Knee Brace

Product Code : HKS006

Indications :

- ♦ Post ACL Ligament Tear Grade1
- ♦ Post MCL/LCL Ligament Tear Grade1
- ♦ Post Operation Support
- ♦ Post Meniscal/Cartilage Damage Grade1

Features:

It consists of functional metallic hinges allowing smooth movement of knee. It allows 180° movement of knee and prevents hyper extension of knee. Accoutered with neoprene material makes it soft, comfortable and skin friendly. The neoprene used has large pores which aids air ventilation. It has a popliteal cut out design. The additional Patellar donut in front provides stability to patella.

R.O.M Knee Brace

Product Code : HKS005

Indications :

- ♦ Post Operative Support to Knee
- ♦ For Rehabilitation Process of Knee

Features:

The articulated hinges of the brace are made up of light alloy, the soft padding for the knee is made up of non-toxic, hypo-allergenic and breathable double-coated neoprene. It has Velcro closure straps for adjustment and a washable lining. Its soft condylar protective pad gives cushioning comfort to the knee. One touch easy to operate calibration is given to adjust flexion and extension movement.

- Extension movement : from 0°-90°.
- Flexion movement : from 0°-120°.
- It is ambidextrous (can be used in both knees) and is ultra-light.

Patella Binder

Product Code : HKS010

Indications :

- ♦ Patellar Tendonitis (Jumper's Knee)
- ♦ Osgood–Schlatter Disease (OSD)
- ♦ Chondromalacia

Features:

It has a unique design which provides maximal stabilization to patellar tendon. The padding is made up of neoprene and drytex material which provides maximal cushioning.

Ankle & Foot Supports

Elite Ankle Stirrup Brace

Product Code : HAF003

Indications :

- ♦ Ankle Instability
- ♦ Recurrent Ankle Sprain
- ♦ Prophylactic Use in Sport Activities

Features:

It incorporates clinically proven stirrup ankle brace features, such as a semi-rigid shell and air cells to provide comfort and support during any activity. The anterior talofibular cross strap and integral forefoot and shin wraps is provided with additional compression and stabilization. It's bilateral rigid inner shells prevents valgus or varus deviation. It also has ATF cross strap for ankle stabilization, integral forefoot. The Shin wraps aids support. The sleek anatomic design makes it comfortable to wear.

Size	UNIVERSAL	XXL
------	-----------	-----

Ankle Binder

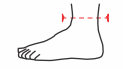

Product Code: HAF001

Indications :

- ♦ Ankle Sprain
- ♦ Ankle Swelling
- ♦ Prophylactic and Therapeutic Use in Sport Activities

Features:

It has a three-inch, both sides elastic wrap to be worn in the figure of 8 in order to improve ankle stability. The flexible compression provides ankle support and improves proprioception. The hook & loop nylon Velcro ensure controlled compression and relief.
